Today, the total AutoCAD market is worth over \$2 billion. AutoCAD is the number one CAD software in the market. Autodesk AutoCAD software is a product of Autodesk, Inc. (NASDAQ: ADSK), an architectural and engineering design and manufacturing software company. AutoCAD 2017 review: Pricing AutoCAD 2017 is priced at \$9,995, the same as 2016. This price includes the software, all the necessary materials, and full training. If you buy only the software, you get it for \$1,995. AutoCAD 2016 software could only be purchased at a price of \$8,995. How do I solve this limit:  $\lim_{(x_1, x_2) \rightarrow (0,0)} \begin{pmatrix} 1 & 1 \\ 0 & 1 \end{pmatrix} \begin{pmatrix} x_1 \\ x_2 \end{pmatrix} = \begin{pmatrix} 1 \\ 0 \end{pmatrix} \begin{pmatrix} 1 \\ 0 \end{pmatrix}$  When I try to solve it I get stuck with the first matrix. I tried rewriting it to the simpler form  $\lim_{(x_1, x_2) \rightarrow (0,0)} \begin{pmatrix} x_1 & x_2 \\ 0 & 1 \end{pmatrix}$  but I still can't figure out how to solve it. I've seen similar questions here but still no solution. A: Hint: Let  $Y = \begin{pmatrix} 1 & 1 \\ 0 & 1 \end{pmatrix}$  and  $X = \begin{pmatrix} x_1 \\ x_2 \end{pmatrix}$ . Let  $V$  be the set of all  $Y$ -orthogonal vectors of  $X$ . Then the linear transformation  $F : X \mapsto X \in V$  (from  $X$  to the  $Y$ -orthogonal vectors) is bijective, so its inverse  $F^{-1}$  is linear and bijective. So, we can find the inverse of  $F$  using the formula  $F^{-1} = \frac{1}{\det(F)} \text{adj}(F)$

The main purpose of the keygen is to generate the license key. It is a unique ID that you need to put it in Autocad before installing. The license key should be in a format that looks like this: XXXXXXXX-XXXXXXX-XXXXXXX-XXXXXXX Here X are just numbers. Installation of Autodesk Autocad should be succesfull and when launching Autocad, you should see a license key in the bottom right corner (see pictures). If the license key is not found, you will need to reinstall Autocad with the keygen.

Q: how to get text from a textview in dialog fragment? I have a code to select an contact,it runs successfully but not showing text in dialog fragment,and following is my code

```
public class SelectContacts extends DialogFragment { private DialogListener dialogListener; ListView listView; View rootView; private CursorLoader cursorLoader; private Cursor cursor; int[] id = new int[]{}; private String[] result = new String[]{}; public static SelectContacts newInstance() { SelectContacts selectContacts = new SelectContacts(); return selectContacts; } @Override public void onAttach(Activity activity) { super.onAttach(activity); try { dialogListener = (DialogInterface.OnClickListener) activity; } catch (ClassCastException e) { throw new ClassCastException(activity.toString() + " must implement DialogInterface.OnClickListener"); } } @Override public void onDetach() { super.onDetach(); dialogListener = null;
```
