Understand that many people agree when I say I'm sold on Photoshop, I do mean that I can actually say that I'm sold, I'm not going back to Lightroom.

The best feature of Photoshop is that you can do a lot without capping your internet bill. The users are always growing, and the updates keep the software up to date. It is going to take time for you to get started and understand the inbuilt tools and the learning curve that comes along with learning Photoshop. Whether you are a designer, photographer, or both, I am sure Adobe Photoshop will soon prove to be useful, and easy to use. 933d7f57e6
